Re : Inmate Grievance # 726-B

Date : February 18, 2010

This is in response to your Inmate Grievance #726-B, received in this office on 02-08-10.

After reviewing your grievance package it appears that your main complaint is that you feel the Medical Department is not providing you with proper medical care, Captain Ryder and Sergeant Walkowicz are interfering with your medical needs, and you are being reprimed against by these individuals. As requested relief you have asked to be moved to C-Block or back to Segregation, and for your complaint/charges to be modified and if your demands for relief are not granted you will file a law suite.

After further review of your institutional file and speaking with staff it is clear that you have been less than a role model inmate while incarcerated here at the Central Virginia Regional. I concur with Lt. Col. Fletcher and Major Dyer in their responses to your grievance. With this in mind, it would be useless for me to try and reason with you on this situation because your request will not be granted and you have already threatened to pursue legal actions if your demands are not met.

[care]  
I feel certain that your medical need is more than adequate and staff are not interfering with your medical needs. Therefore your requested relief is denied. Your threats of litigation do not intimidate me or any of my staff and I will not surrender to demands because of threatened litigation. Please feel free to pursue whatever litigation you feel is necessary as I am certain the Central
